I have installed the Securexam software and taken a test exam.

If I have any doubts about my laptop's reliability, I will plan to write my exam. I understand that if my laptop fails during the exam, I will have to finish the exam by writing it. No extra time will be allowed for attempting to resolve the computer problems during the exam. The Duquesne University School of Law will not be able to provide any technical support if any computer problems are encountered on the day of the exam. I understand that after the exam has concluded, an attempt may be made to retrieve any incomplete exam from the student's hard drive. If the incomplete exam cannot be retrieved within 24 hours, the Associate Dean for Academic Affairs, in consultation with the instructor, will determine remedial options, if any.
